

Dear Fellow Winemakers,

Below is the offering for frozen Grapes from the West Coast (CA, WA, OR). The outlook for grape harvest is unknown at this time for this year. The white grapes are, stemmed, crushed, settled and 5.25 gallons are put in a 6 gallon bucket and frozen. The red/black grapes are stemmed, crushed and shot into buckets, with 5 gallons of pulp in a 6 gallon bucket. Yield on the buckets of red/black grapes is normally 3+ gallons. We expect delivery between Thanksgiving and Christmas 2018. The grape prices are based on frozen delivery truck prices to my store, Fermenter's Supply, in Omaha NE. NOTE that the supplier is lowering the preharvest 2018 price, but after they are picked, the price goes up \$30/bkt.

If you need the grapes sooner, please note they can be air freighted in at an additional charge.

Please order by September 15, 2018. Any orders taken after that will have a \$30/bkt late charge.

Please get your orders in as early as possible. Orders are filled in the order received. If past vintage grapes are sold out, you will be contacted to make another choice. If current vintage grapes pick out short, you may need to make another choice on short notice. Example – if the estimate is that they will have 10 tons of Chardonnay, but they only receive 8 tons, those that ordered later will not be getting that Chardonnay. He may have a different Chardonnay to choose, or you may choose another grape variety. Prices below subject to change/correction. Also note payments by credit card will have a 3% processing fee added to the price.

PAST Vintage Grapes			PAYMENT CHECK/CASH Order by Sept 15, 2018, credit cards add 3%
